

In Memoriam

(August, 1948)

In memory of Mr. O. P. Koch, who for seven years worked loyally with the Norfolk County School Board, who served as Scoutmaster in Park View, and who was greatly interested in athletics.

All his pleasures, all his desire, all he talked about, everything he did was centered around the betterment of young people in the community.

MR. A. M. STENZEL
Guidance Director

DEDICATION

Mr. A. M. Stenzel, Guidance Director of Cradock High School, spent his early years in Monroe Junior and Senior High School in Rochester, New York. He then attended Brockport State Teachers' College and later received his B.S. degree from the Buffalo State Teachers' College, Buffalo, New York.

In 1936 he began his teaching career in a Long Island Elementary and Junior High School where he taught for five years. He moved to the principalship of a Sixth Grade School for a period of one year prior to his enlistment in the United States Navy in June of 1942.

Mr. Stenzel's experience and qualifications rated the position of fitting experienced men to navy jobs under the navy classification program.

In March 1946 he went to the Norfolk Division of William and Mary and worked as a counsellor for college students and veterans.

In July of the same year he was married to Mildred Flemming, a graduate of Mary Washington College and a teacher at Granby High School, Norfolk, Virginia.

He went to Buffalo State Teachers' College in the summer of 1947 for further training.

In September 1947, he joined the faculty of Cradock High School. Since he has been in Cradock, he has helped many teachers and pupils with their various problems. This has brought about a better understanding and has drawn them closer together. In his two years at Cradock High School he has been a great asset to the school and the faculty. He arranged the scheduling of all students to classes at the beginning of the year.

His understanding manner has enabled students to solve educational, occupational, and personal problems. He has ordered catalogues from colleges for students and has checked their grades to see if they are good college material. During his two years on the faculty he has given mental maturity tests to the Seniors and for the first time, this year he gave these tests to the Juniors.

Mr. Stenzel has scheduled and planned a Baby Sitting Course for the girls who were interested in the subject which turned out to be profitable to those who participated.

He has scheduled many persons to give talks on after-school careers, in the field of *Nursing and Colleges*.

In Mr. Stenzel's office, there is a complete library and file on every kind of education than can be obtained and information concerning colleges and business schools.

It is only possible to show a few of the highlights in Mr. Stenzel's Cradock High School career. His past actions promise even greater achievements in the future.

We, the Seniors of the 1949 Graduating Class, take pleasure in dedicating this edition of the annual to Mr. Alvin Milton Stenzel, Guidance Director of Cradock High School.

To The Senior Class of 1949:

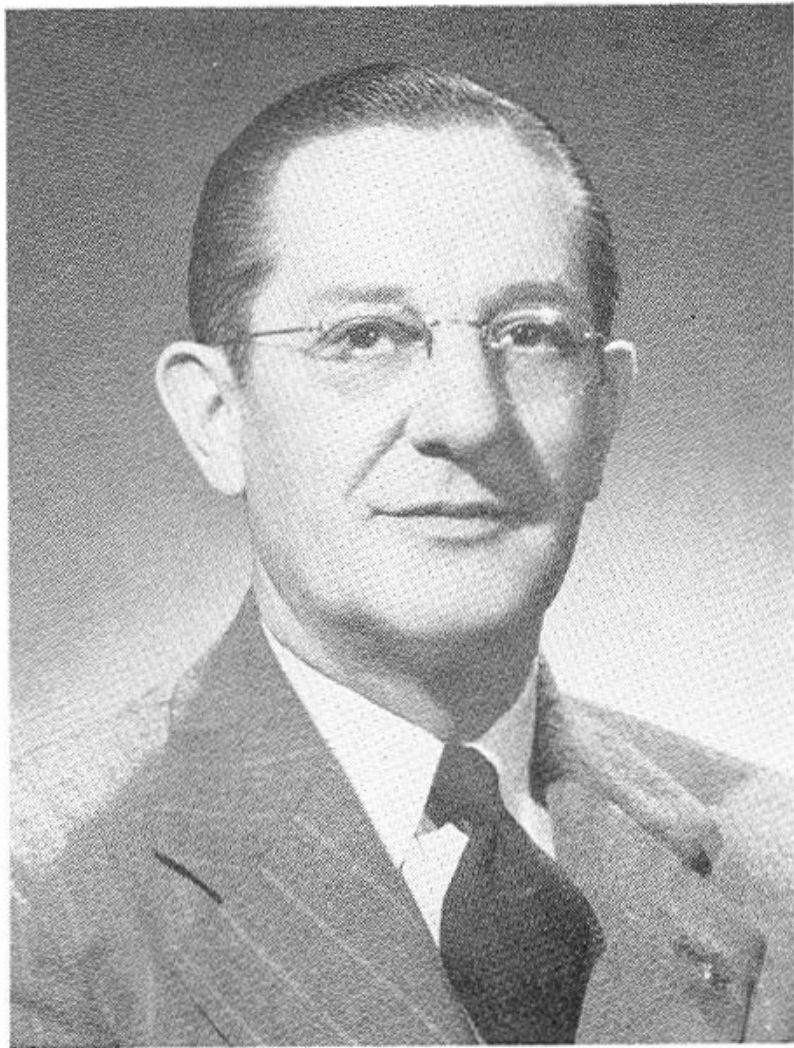

It is a real privilege to have recorded on this page continued good wishes that happiness and success will mark the path to be followed by the students and graduates of Cradock High School. The efforts of your school administration have been prompted by this fundamental hope.

This book is more than a record of events or an album of memories. While it is affording many hours of delightful reminiscence through the years, may it recall, too, those associations and activities in your high school days which established ideals, gave birth to ideas, furnished incentive, and provided experiences for living the better life.

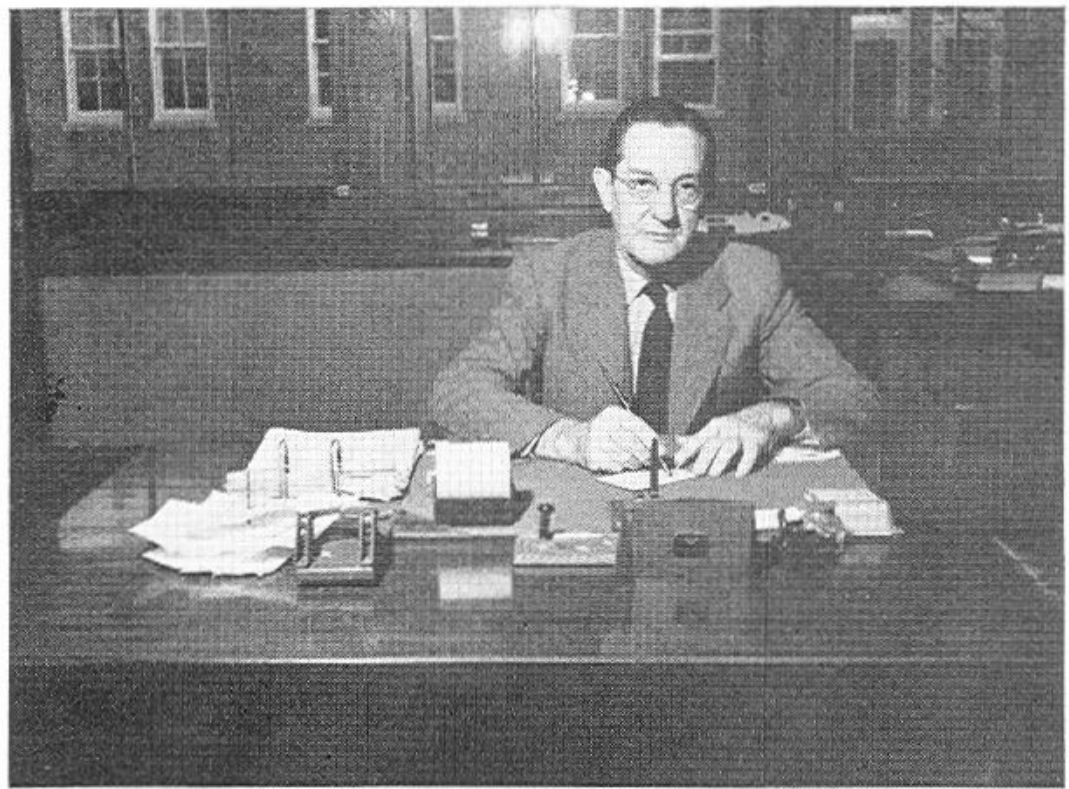

May the recollections of this book prove that these happy associations have not been in vain.

Very truly yours,

A. B. Haga
